

TECHNICAL DATASHEET

Code	LAB-LB45-ZPP
Brief Description	Lithium Battery Mark UN3481, mm 100x100, in PP, roll of 500
Use	Packages
Material	PP (Polypropylene)
Package	Roll of 500 pieces

Description

The lithium battery mark is to be used to mark packages for shipment with the following provisions/packing instructions:

- Special Provision 188 (ADR, RID, ADN, IMDG).
- - P.I. 966 Sect. II and P.I. 967 Sect. II (IATA).

The product is printed with UV protective coating.

It has a permanent adhesive with internal and external durability of 2 years with support for tearing between labels.

The product has a heat-shrink wrapping and its country of origin is Italy. As required by the IMDG Code, the adhesive is durable after immersion of 3 months at sea (IMDG Code 5.2.2.2.1.7).

The label is compliant in design, size, colour and symbol to the requirements of the regulations. *A label 9A is also required (always check with your consultant for the correct labelling and marking to be applied to the package).
