✔ ADR ✔ RID ✔ ADN ✔ IMDG ✔ IATA

Description

"Shipment photographed at departure" labels must be used tosafeguard your shipments.
The labels can be applied on both packages and pallets.
The roll consists of **125 unique identification numbers**, each identification number being printed on 4 labels, for a total of 500 labels per roll.
There are no duplicates of numbers, each roll has a set of unique numbers.
You must store the photos taken on the labels on the 4 sides of the package or overpack so that you can prove the integrity of the goods at the departure. The label also contains the barcode with the identification number.

They have a permanent adhesive, an indoor and outdoor life of 2 years, with precut zig-zag supports to facilitate detaching the labels.

The products come in thermowrapped packs and are made in Italy.

The adhesive is such that the information will still be identifiable on packages surviving at least 3 months immersion in the sea, as required by the IMDG Code (5.2.2.2.1.7).

The labels comply in shape, colour, format, symbol and text to the specifications as required by the Regulations on the Transport of Dangerous Goods.
